

- HELP

You find yourself in the luggage wagon with the dead body and a crowd of people counting on you to solve the mystery.

- Inspect the body

You find rests of coal near the wound and a path of blood leading to the next wagon.

- Speak with the supervisor

Assures that they saw someone suspicious in the other wagon before they came in to check

You walk up to the next wagon, the bar, and notice a person sitting at the bar with black hands from handling coal

- Directly arrest this person for murder because of the rests of coal in his hands

Everybody starts screaming at you, you got the wrong person. Everybody knows it's the machinist who just ended his shift, it couldn't possibly be him. You apologize and ask him about the hands, he answers: "I'm the machinist of this train and my shovel disappeared about 15 minutes ago so I had to move the coal with my bare hands". You realize what's going on and go directly to the machinist's room.

- Approach this person calmly and ask about the coal in his hands

"I'm the machinist of this train and my shovel disappeared about 15 minutes ago so I had to move the coal with my bare hands". You realize what's going on and go directly to the machinist's room.

You find that the shovel is right in its usual spot, very clean and the room is empty.

- You go back to the other wagon and arrest the machinist

You take him to the police in the next stop and after a day you realize he had an alibi and you have the wrong person, you lose.

- Check the bathroom

The bathroom is empty, the window to the ceiling is closed and there is no way of opening it.

- Break the window open and look for someone on top of the train

You find the other machinist hiding on top of the train and are able to arrest him. You win

- Go back to ask around in the bar again

You lose a lot of time, no one saw anything, the train stops and the murderer escapes. You lose

- IGNORE

You lose the game.
